sailhousingsolutions.org - We dream of a day when all individuals, with their unique abilities and talents, can enjoy lives of interdependence, empowerment, and purpose in the community of their choice.

SAILing Lessons. SAIL believes in connecting people to people and people to resources which is why we created SAILing Lessons. These In-Person informational sessions for family members focus on a particular area of interest or challenge related to developing a housing solution for their loved one.

This is result of a grant written to our Detroit Presbytery to provide funds for ten families to attend training in Chicago with the Center for Independent Futures to explore housing solutions for their loved ones. This has resulted in those ten families meeting together over the last 2 1/2 years and now forming a non-profit they call Sail Housing Solutions. They are committed to finding housing solutions for their loved ones as well as helping others to do the same. They have done a wonderful job of launching a website to communicate their mission and connecting with others to share resources and providing opportunities for people to gather and meet potential housemates.
